### **HotAir Closes Deal for HSIA at Three Jameson Inn Properties**

Expanding their corporate relationship, Kitchin Hospitality LLC taps HotAir to provide HSIA for properties in Kentucky, Louisiana and Tennessee.

MELBOURNE BEACH, FL - September 3, 2003 - Kitchin Hospitality LLC, owners of Jameson Inn and Signature Inn hotel properties in the southeastern and midwestern United States, has selected HotAir Network Group as the high-speed Internet provider for three Jameson Inns located in Richmond, Kentucky, Shreveport, Louisiana and Jackson, Tennessee. These sites build upon the existing corporate relationship between HotAir and Kitchin Hospitality. Jameson Inn of Palm Bay, Florida has been up and running with the HotAir solution since August of 2003. Service is expected to extend to all Kitchin Hospitality properties eventually.

"HotAir continues to impress us with their understanding of how the hospitality industry needs to employ HSIA to increase guest loyalty and strengthen our relationships with our corporate clients. HotAir provides a true turnkey solution that frees our team to focus on revenue generation, customer satisfaction, and big picture opportunities," stated Tony Maness of Kitchin Hospitality LLC, Atlanta, Georgia.

The HotAir solution begins with the installation of a customized high-speed network specifically configured to ensure ease of guest access including wired access to every room and wireless access in common areas, and provide secure, quality connections in both configurations. HotAir's solution includes a comprehensive set of marketing and sales support materials, 24x7 technical support and a wide range of equipment to support every guest's needs.

HotAir will supply high-speed wireless coverage in common areas and conference rooms, and wired access to all guest rooms at the Jameson Inn properties in Richmond, Shreveport and Jackson. This will provide every guest and conference attendee access to the Internet in order to check email, browse the Internet or connect to their corporate VPN. Internet access is provided as a complimentary amenity to guests at all four Jameson Inn properties serviced by HotAir Network Group.

"We are very excited about the newest additions to our HotAir service coverage. We have been working closely with Kitchin to ensure that HotAir services are installed at the right properties at the right time to give them the greatest return on their investment. As our relationship grows, we feel that our professional installation, commercial equipment, and outstanding technical support will serve Kitchin well, and ultimately lead to the expansion of our service throughout their properties in the United States," said Steve Gould, President of HotAir Network Group.

#### **About HotAir**

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) for the hospitality industry. HotAir optimizes the solution by providing a turnkey, low maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. HotAir specializes in integrated solutions allowing remote management and support for its customers. More information regarding HotAir's products and services can be found at [www.hotairnetwork.com](http://www.hotairnetwork.com) or by calling 877-464-4742.
