### **Kitchin Hospitality Signs Contract with HotAir for HSIA at Four Signature Inns**

Advancing their corporate relationship, Kitchin Hospitality LLC chooses HotAir to provide service at four Signature Inns.

MELBOURNE BEACH, FL - January 5, 2004 - Kitchin Hospitality LLC, owners of Jameson Inn and Signature Inn hotel properties in the Southeastern and Midwestern United States, has selected HotAir Network Group as the high-speed wireless Internet provider for four Signature Inns located in Normal, Illinois, Carmel, Indiana, Bettendorf, Iowa and Louisville, Kentucky. These sites build upon the existing corporate relationship between HotAir and Kitchin Hospitality. Four Jameson Inns in Florida, Kentucky, Louisiana and Tennessee previously selected the HotAir solution in 2003. HotAir expects to extend service throughout all Kitchin Hospitality properties in the future.

"Our Signature Brand offers the business traveler facilities and services to lessen the burden on the guest during their stays. As a business oriented facility, we believe that the state-of-the-art wireless Internet service that HotAir Network Group offers compliments our philosophy," said Tony Maness of Kitchin Hospitality LLC, Atlanta, Georgia. "HotAir's professional technical support was a key in our decision process. Business travelers are looking for easy answers and amenities that work. HotAir is the right choice for our properties," he continued.

HotAir will supply total property high-speed wireless coverage in common areas, conference rooms and all guest rooms at the Signature Inn properties in Normal, Carmel, Bettendorf and Louisville. This will provide every guest and conference attendee access to the Internet in order to check email, browse the Internet or connect to their corporate VPN.

"Signature is a hidden jewel in the hospitality industry. They offer extensive property features, such as meeting rooms and interview facilities, in a very professional atmosphere. We believe the HotAir wireless Internet service will enhance their appeal to the business traveler. We are excited about leveraging the HotAir Marketing program to increase customer awareness through our collateral for local advertising, brochures, and on-site/in-room promotions," said Steve Gould, President of HotAir Network Group.

#### **About HotAir**

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) for the hospitality industry. HotAir optimizes the solution by providing a turnkey, low maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. HotAir specializes in integrated solutions allowing remote management and support for its customers. More information regarding HotAir's products and services can be found at [www.hotairnetwork.com](http://www.hotairnetwork.com) or by calling 877-464-4742.
