**HotAir Lights Up Three Signature Inns in One Week**  
Seven Kitchin Hospitality properties now live with HotAir HSIA.

MELBOURNE BEACH, FL - February 13, 2004 - HotAir Network Group announced today that three Signature Inns went live with the company's high-speed Internet access services in the past week. The hotels, owned and operated by Kitchin Hospitality LLC, are located in Normal, Illinois, Bettendorf, Iowa and Louisville, Kentucky. A fourth Signature Inn in Carmel, Indiana implemented the HotAir solution in October of 2003.

"Kitchin Hospitality expressed their desire to move quickly to get their facilities online as fast as possible. We were able to work with hardware vendors, Internet service providers and our marketing department to expedite the installation and activation process," said Sam Trierer, CTO of HotAir Network Group.

The relationship between HotAir and Kitchin Hospitality continues to strengthen. Four Jameson Inns in Florida, Kentucky, Louisiana and Tennessee selected the HotAir solution in 2003. Four Signature Inns soon followed suit in late 2003 and early 2004. HotAir expects to extend service throughout all Kitchin Hospitality properties in the future.

"We value our customer relationships and when presented with an opportunity, we will leverage our resources to the advantage of the customer to further strengthen those relationships. Kitchin felt it was important to get these facilities up and operational, and we felt it was important to serve our customer," said Steve Gould, President of HotAir Network Group.

HotAir provides total property high-speed wireless coverage in common areas, conference rooms and approximately 450 guest rooms at the Signature Inn properties in Normal, Bettendorf and Louisville. This ensures that every guest and conference attendee has reliable access to the Internet in order to check email, browse the Internet or connect to their corporate VPN.

**About HotAir**

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) for the hospitality industry. HotAir optimizes the solution by providing a turnkey, low maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. HotAir specializes in integrated solutions allowing remote management and support for its customers. More information regarding HotAir's products and services can be found at [www.hotairnetwork.com](http://www.hotairnetwork.com) or by calling 877-464-4742.
