HotAir Network Group Wins Holiday Inn Riverfront - Kennedy Space Center
HotAir continues to implement a great number of Holiday Inn properties across the south.

TITUSVILLE, FL - November 16, 2004 -- HotAir Network Group is pleased to announce that Holiday Inn Riverfront - Kennedy Space Center in Titusville, Florida has chosen HotAir as their high-speed wireless Internet provider. The property features 117 guest rooms, George's Riverfront Café and Bar. HotAir will supply total property high-speed coverage in all guest rooms and common areas using a custom designed radio solution that provides superior coverage in older structures.

"HotAir recognized that our primary concern was corporate contracts and the concerns of our corporate customers. The HotAir solution, both the technology and the technical support, exceeds all corporate requirements and allows us to utilize HSIA as a discriminator over our competition," said Tommy Bates, General Manager of Holiday Inn Riverfront - Kennedy Space Center.

"HotAir continues to win and implement a great number of Holiday Inn properties. Our familiarity with Holiday Inn brand standards as well as the more common physical structures and layouts permits us to turn around a complete and accurate proposal quickly and prepares us to implement the installation within days of signing a contract. We have found that most property management and ownership groups find HotAir's responsiveness a huge plus, particularly when combined with our reputation for outstanding service and a flexible business model," said Steve Gould, President of HotAir Network Group.

The HotAir solution begins with the installation of a customized high-speed wireless network specifically configured to ensure the elimination of dead zones and provide secure, quality connections in every guest room. HotAir's solution includes a comprehensive set of marketing and sales support materials, 24x7 technical support and a wide range of equipment to support every guest's needs.

The addition of this site brings the total number of US HotAir hospitality properties to 33 in seven states. Properties currently using the HotAir service include Holiday Inn, Sheraton, Radisson, Hampton Inn, Jameson Inn, Signature Inn and Best Western.

About HotAir

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) to the hospitality industry. They optimize the solution by providing a turnkey, low-maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations, specializing in integrated solutions allowing remote management and support for customers. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. More information regarding HotAir's products and services can be found at www.hotairnetwork.com or by calling 877-464-4742.
