**Radisson University Hotel Expands Coverage
Through HotAir Network Group**

University of Central Florida hotel expands high-speed
Internet access to include all guest rooms.

ORLANDO, FL - November 1, 2004 -- HotAir Network Group is pleased to announce that the Radisson University Hotel Orlando has decided to expand coverage of HotAir Network Group's Internet service to all 150 of its guest rooms. The Radisson University Hotel successfully implemented the HotAir solution for high-speed Internet access in December of 2003. Since that time, demand has grown on a steady basis.

"The HotAir Internet service has allowed our property to attract more and more conference business and significantly increase customer loyalty. We get nothing but compliments on HotAir's performance. The increase in utilization required us to build out the property to insure the availability of rooms with wireless coverage," stated Wayne Stelling, General Manager of the Radisson University Hotel Orlando.

"The Radisson is a great client. The location next to the University of Central Florida and UCF Research Park gives the hotel access to both individual and corporate clients who get great value out of high-speed Internet access. I'm glad that our system and our support could be leveraged so effectively to help them increase their business," said Steve Gould, President of HotAir Network Group.

About HotAir

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) to the hospitality industry. They optimize the solution by providing a turnkey, low-maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations, specializing in integrated solutions allowing remote management and support for customers. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. More information regarding HotAir's products and services can be found at www.hotairnetwork.com or by calling 877-464-4742.
