HotAir Provides Internet Services for Holiday Inn Main Gate Guests

Wireless network configured to eliminate dead zones at large facility with unique layout.

KISSIMMEE, FL - January 2005 -- HotAir Network Group is pleased to announce that Holiday Inn Main Gate in Kissimmee is the latest Holiday Inn to join the HotAir network of sites featuring the HotAir Internet solution. Main Gate serves both vacation and business travelers. The hotel has a unique layout that features a large meeting area and lobby with two guest buildings overlooking a spacious courtyard.

"We are very pleased with the HotAir Guest Internet Solution. The HotAir technical team truly understood the challenges of our property and addressed all our concerns. The installation and ongoing service have met all of our expectations and we continue to receive positive feedback from our guests," said Michael Haupt, Chief Information Officer for Holiday Inn Main Gate.

The HotAir solution begins with the installation of a customized high-speed wireless network specifically configured to ensure the elimination of dead zones and provide secure, quality connections in every guest room. HotAir's solution includes a comprehensive set of marketing and sales support materials, 24x7 technical support and a wide range of equipment to support every guest's needs.

"Holiday Inn Main Gate is a unique facility spreading over a large area. The key at this facility was to ensure that every inch had superior coverage, and eliminate any guest frustrations associated with the Internet solution. HotAir was selected because of our technical expertise and our ability to address all the concerns of the management team and their consultants," explained Steve Gould, President of HotAir Network Group.

About HotAir

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) for the hospitality industry. HotAir optimizes the solution by providing a turnkey, low maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. HotAir specializes in integrated solutions allowing remote management and support for its customers. More information regarding HotAir's products and services can be found at www.hotairnetwork.com or by calling 877-464-4742.
