HotAir Installs Guest Internet Services at another Holiday Inn Express

Guests can surf both the Internet and the Atlantic at Holiday Inn Express in Fort Pierce.

FORT PIERCE, FL - July 2005 -- HotAir Network Group is pleased to announce the installation of another Holiday Inn Express. Holiday Inn Express in Fort Pierce, part of InterContinental Hotels Group (IHCG), is a waterfront resort offering a recently remodeled facility and a complement of amenities that now include free high-speed wireless Internet access, thanks to HotAir.

"HotAir has worked with us through every phase of our remodeling after the hurricanes of 2004. They put off the installation until the facility was ready. They were there the day doors opened, offering wireless Internet to the very first guest," said Leyla Karacan, General Manager of Holiday Inn Express in Fort Pierce .

"We're building a great relationship with Holiday Inns throughout Florida. The Holiday Inn properties communicate with us constantly, and our reputation for providing outstanding service and a worry-free solution is spreading rapidly throughout their community. We understand the IHCG approach to Internet service, and the underlying philosophy matches our implementation. That makes a good fit for the hotel operator," explained Steve Gould, President of HotAir Network Group.

Properties currently using the HotAir service include Holiday Inn, Sheraton, Radisson, Hampton Inn, Jameson Inn, Signature Inn, Best Western, Hawthorn Suites and Ramada Inn.

About HotAir

HotAir has quickly gained recognition for providing a comprehensive business solution for high-speed Internet access (HSIA) for the hospitality industry. HotAir optimizes the solution by providing a turnkey, low maintenance network that has a minimal impact on hotel staff while providing associated support on a 24/7 basis. HotAir offers a complete HSIA package tailored to each customer's operational requirements, brand standards and other unique considerations. HotAir is rapidly advancing the future of high-speed wireless technologies through innovative solutions based on firm industry knowledge and dedicated installations. HotAir specializes in integrated solutions allowing remote management and support for its customers. More information regarding HotAir's products and services can be found at www.hotairnetwork.com or by calling 877-464-4742.
